

“Centro Acquedotto” is situated in the downtown of Ferrara.
“Aqueduct” is the name of a monument, built in the 30s and surrounded by the circuit of Piazza XXIV Maggio, with green areas and children’s playground. There are parks in the neighboring streets and a bus stop.

Our building is big, on two floors and with several and equipped rooms. There is a kitchen, a gym, a library, a bar and a garden with trees and tables.
